

Grade 1 Counting with Block-Builders Worksheet

Grade 1

math

block-builders

Students will be able to count objects and solve addition problems

Name: _____

Date: _____

1. The block-builders have 2 red blocks. Count them. Write the number.

2. Block-builders stack 3 yellow blocks. How many blocks total? Count.

3. The block-builders place 2 blue blocks. Then add 1 more. How many now?

4. Block-builders build a tower with 4 green blocks. Add 2 blocks more. How many total?

5. The block-builders count 3 orange blocks plus 3 purple blocks. What is the total?

6. Block-builders have 5 blocks. They use 2 for their tower. How many are left?

7. Two block-builders each have 4 blocks. How many blocks do they have together?

8. Block-builders start with 7 blocks. They add 2 more, then remove 1. How many now?

Answer Key: Grade 1 Counting with Block-Builders Worksheet

Grade 1 | TEACHER/PARENT USE ONLY

Use physical blocks or manipulatives while students work through problems for hands-on learning and engagement.

1. The block-builders have 2 red blocks. Count them. Write the number.

Answer: 2

2. Block-builders stack 3 yellow blocks. How many blocks total? Count.

Answer: 3

3. The block-builders place 2 blue blocks. Then add 1 more. How many now?

Answer: 3

4. Block-builders build a tower with 4 green blocks. Add 2 blocks more. How many total?

Answer: 6

5. The block-builders count 3 orange blocks plus 3 purple blocks. What is the total?

Answer: 6

6. Block-builders have 5 blocks. They use 2 for their tower. How many are left?

Answer: 3

7. Two block-builders each have 4 blocks. How many blocks do they have together?

Answer: 8

8. Block-builders start with 7 blocks. They add 2 more, then remove 1. How many now?

Answer: 8
