VOCABULARY

PARENTHESES — Curved symbols () used to show which operation to do first

MULTIPLY — To find the total when you combine equal groups

DIVIDE — To split into equal parts or groups

ADD — To combine numbers together to find the sum

SUBTRACT — To take away or find the difference between numbers

PEMDAS — The acronym for order of operations: Parentheses, Exponents, Multiply, Divide, Add, Subtract

EXPRESSION — A math sentence with numbers and operations but no equals sign

EQUALS — The symbol = that shows two amounts are the same

BRACKETS — Square symbols [] used in some expressions for grouping

CALCULATE — To work out an answer using math

SIMPLIFY — To make a math expression easier by solving it step by step

OPERATIONS — The math processes: addition, subtraction, multiplication, and division
