VOCABULARY

RATIO — A comparison of two quantities using numbers

QUANTITY — An amount or number of something

COMPARE — To examine similarities and differences between quantities

RELATIONSHIP — The connection between two quantities in a ratio

EQUAL — Having the same value or amount

PROPORTION — An equation showing two equal ratios

PAIR — Two things grouped together

UNIT — A single amount used as a standard for measurement

SCALE — The relative size or extent of something

EQUIVALENT — Equal in value or meaning

RATE — A ratio comparing two different types of quantities
