VOCABULARY

STATISTICAL — Related to the collection and analysis of numerical data

QUESTION — An inquiry that drives the need for data collection

POPULATION — The entire group being studied in statistics

VARIABLE — A characteristic or trait that can change and be measured

DATASET — A collection of related data values gathered for analysis

ATTRIBUTE — A characteristic or property of an individual in a population

SURVEY — A method of collecting data by asking questions

MEASURE — To determine the size, amount, or degree of something

COLLECT — To gather data from a population or sample

ANALYZE — To examine data carefully to find patterns and meanings

DISTRIBUTE — How data values are spread across a range

ORGANIZE — To arrange data in a way that makes it easier to understand
