Word Search

NGSS.MS-LS2-1

Discover how organisms show love through ecosystem relationships and interactions.

FIND THESE WORDS:

- INTERACTION
- FOODCHAIN
- PRODUCER
- HABITAT

- DECOMPOSER
- COMMUNITY
- CONSUMER
- ENERGY

- SYMBIOSIS
- PREDATOR
- ORGANISM
- POPULATION

Name: _____

Date: _____

ORGANISM

POPULATION

VOCABULARY

PREDATOR — An animal that hunts and eats other animals for food

PRODUCER — An organism that makes its own food using sunlight

CONSUMER — An organism that eats other organisms for energy

ORGANISM — Any living thing in an ecosystem

HABITAT — The place where an organism lives and grows

DECOMPOSER — An organism that breaks down dead material

SYMBIOSIS — A close relationship between two different species

ENERGY — Power that flows through an ecosystem from sun to organisms

FOODCHAIN — The path energy takes as organisms eat each other

POPULATION — All members of one species living in an area

COMMUNITY — All populations of different species living together

INTERACTION — The way organisms affect each other in ecosystems
